PART #	DESCRIPTION
JSRLP022	2019+ Passport Side Steps

### INSTALLATION

1. Separate all hardware and get ready for install. If anything is missing or damaged please do not proceed & contact us immediately. Layout brackets. Each bracket is numbered 1-3. Starting from the front (1) to the rear (3).
2. Remove any covers blocking side step or undercoating that may be blocking factory bolt hole locations.
3. Loosely attach the brackets underneath the car.
5. Continue to loosely attach side steps with the hardware provided.(ENSURE SIDE STEPS ARE ON THE CORRECT SIDE with the logos at the rear of the vehicle)
6. Once everything is aligned properly proceed to tighten down the nuts & bolts. Double check both driver & passenger side.
